"A hero is an ordinary individual who finds the strength to persevere and endure in spite of overwhelming obstacles."

Christopher Reeve

World War II was truly a global war. Some 70 nations took part in the conflict, and fighting took place on the continents of Africa, Asia, and Europe, as well as on the high seas. Entire societies participated as soldiers or as war workers, while others were persecuted as victims of occupation and mass murder.

World War II cost the United States a million casualties and nearly 400,000 deaths. In both domestic and foreign affairs, its consequences were far-reaching. It ended the Depression, brought millions of married women into the workforce, initiated sweeping changes in the lives of the nation's minority groups, and dramatically expanded government's presence in American life.

COLLEYVILLE CONNECTION

Nearly 60 years later, a Holocaust survivor finally gets to personally thank one of his liberators

George Salton, who was 17 and weighed 75 pounds when he was freed from a Nazi concentration camp on May 2, 1945, met one of the American soldiers who liberated him.

Megellas, now 88, was among the first soldiers from the 82nd Airborne Division to enter the Wobbelin camp near Ludwigslust, Germany. He looked Salton in the eye and said:

"In you, I see living proof of what we fought for in World War II."
